

Third Call for Papers

SoC 2010

The International Symposium on System-on-Chip
Tampere, Finland September 29-30, 2010

Organizer: Tampere University of Technology / Dept. of Computer Systems

Technical co-sponsor: IEEE Circuits and Systems Society

Supported by: Nokia Corporation and ST-Ericsson (to be confirmed)

Steering Committee:

Fabio Campi, *ST Microelectronics, Italy*
Heinrich Meyr, *RWTH Aachen, Germany*
Jari Nurmi, *TUT, Finland (Chairman)*
Jan Rabaey, *UC Berkeley, USA*
Hannu Tenhunen, *KTH, Sweden*

General Chair:

Jari Nurmi, *TUT, Finland*

Technical Program Chair:

Jarmo Takala, *TUT, Finland*

Exhibit Chair:

Heikki Hurskainen, *TUT, Finland*

Proceedings Co-Chairs:

Olli Vainio, *TUT, Finland*
Perttu Salmela, *TUT, Finland*

Scientific Program Committee:

Andrea Aquaviva, *U Verona, Italy*
Brian Bailey, *independent consultant, USA*
Koen Bertels, *TU Delft, The Netherlands*
Davide Bertozzi, *U Ferrara, Italy*
Shuvra S. Bhattacharyya, *U Maryland, USA*
Abdelhafid Bouhraoua, *KFUPM, Saudi-Arabia*
Jean-Luc Dekeyser, *LIFL, France*
Peeter Ellervee, *TU Tallinn, Estonia*
M. A. Al Faruque, *U Karlsruhe, Germany*
William Fornaciari, *Politecnico di Milano, Italy*
Kees Goossens, *TU Eindhoven, The Netherlands*
Hannu Heusala, *University of Oulu, Finland*
Jouni Isoaho, *University of Turku, Finland*
Tariq Jamil, *Sultan Qaboos University, Oman*
Murali Jayapala, *IMEC, Belgium*
Kimmo Kuusilinna, *Nokia, USA*
Vesa Lahtinen, *Nokia, Finland*
Rainer Leupers, *RWTH Aachen, Germany*
Oz Levia, *independent consultant, USA*
Shahzad A. Malik, *CIIT, Pakistan*
Dragomir Milojevic, *ULB/IMEC, Belgium*
Fernando Moraes, *PUCRS, Brazil*
Tobias Noll, *RWTH Aachen, Germany*
Yang Qu, *Nokia, Finland*
Tero Rissa, *Nokia, Finland*
Stefan Rusu, *Intel, USA*
Marco Santambrogio, *MIT, USA*
Olli Silvén, *University of Oulu, Finland*
Gerard J. M. Smit, *U Twente, The Netherlands*
Wonyong Sung, *Seoul National University, Korea*
Lionel Torres, *LIRMM, France*
Steve Wilton, *UBC, Canada*

SoC 2010 is the 12th SoC event, building on the tradition of a series of SoC events organized in Tampere, Finland annually since 1999. It consists of invited talks, contributed scientific papers, and a commercial exhibit with its own industrial program track. The symposium also features a panel discussion on topics of high interest to the System-on-Chip community, and a pre-conference tutorial on September 28. The mission of SoC 2010 is to provide a forum that is fully and comprehensively dedicated to SoC.

We encourage your contribution to the program by submitting a research paper, suggesting a distinguished invited lecturer and/or topic, submitting an abstract to the industry program track, suggesting a tutorial course, or a topic and tentative participants for a panel discussion.

The special theme of the year is **Embedded Multicore/Multiprocessor Computing Platforms**.

Topics of interest include, but are not limited to:

- *Alternative computing concepts*
- *Advanced platform architectures*
- *Analysis and early estimation techniques*
- *Application-specific processors and architectures*
- *Configurable and reconfigurable architectures*
- *Hardware/software reuse techniques*
- *Low-power hardware techniques*
- *Low-power software techniques*
- *Operating systems for embedded systems*
- *Multiprocessor SOC implementations*
- *Network-on-chip and inter-chip communications*
- *Processor and compiler generators*
- *Retargetable compilers*
- *SoC verification and testing*
- *Software runtime environments*
- *Software emulation and simulation*
- *Software tools and languages for multiprocessor systems*
- *Special SoC applications*
- *System-level design flow and methodology*

All topics should be handled highlighting the relevance to SoC.

Author Schedules:

Invited lectures, tutorials and scientific papers: May 17, 2010.

Notification of acceptance for scientific papers: June 28, 2010.

Industrial abstracts, panels, camera-ready papers: August 9, 2010.

Notification of acceptance for industrial abstracts: August 31, 2010.

All submissions must be made electronically in A4 PDF format, 4-8 pages. Additional submission instructions are available on the conference website. The scientific papers will be published in the proceedings of SoC and in IEEE Xplore. Best papers will be invited to be extended and submitted to IEEE Design & Test of Computers and International Journal of Embedded and Real-Time Communication Systems.

Complete details on the symposium website: <http://soc.cs.tut.fi/>
